TO THANH TAM

Backend Developer

- **Phone:** (+84) 963 992 293
- **Email:** oktottam@gmail.com
- **Location:** Ho Chi Minh City, Vietnam
- **DOB:** 24 Nov 2000

PROFESSIONAL SUMMARY

A dedicated Backend Developer with over 3 years of experience, **specializing in Microservices architecture, Domain-Driven Design (DDD)**, and large-scale data systems. Beyond technical implementation, I possess a **strong product mindset**, with a deep understanding of end-to-end business processes. Finalized technical solutions with IT Director by resolving critical logic gaps during UAT phase.

TECHNICAL SKILLS

- **Languages & Frameworks:** Node.js (NestJS), Java (Spring Boot), .NET Framework (C#), SAP ABAP, Angular.
- **Databases:** MongoDB (Replica Set), SQL Server, Clickhouse (MergeTree), Redis.
- **Architecture & Patterns:** Microservices, CQRS, DDD, Event Sourcing, Message Queues (RabbitMQ).
- **Data & Integration:** Kafka (CDC), ETL Pipelines, Apache Superset, SAP Integration, iHRP Integration.
- **Tools:** Git, Monorepo Management, Agile/Scrum.

WORK EXPERIENCE

DAT XANH GROUP (DXG) | Backend Developer

February 2023 – Present

Core Project: Enterprise CRM Solution (Part of 150B VND DXG-DX ERP) *February 2023 – October 2025*

- **Role:** Core Developer responsible for the end-to-end backend lifecycle of the central CRM module, serving as the "core" for multiple integrated sub-systems.
- **System Architecture:** Architected the system using **Microservices** and **CQRS** (Read/Write DB separation). Applied **DDD** to decouple complex business domains into manageable services.
- **Backend Engineering:**
  - Implemented **NestJS** services with **Saga Pattern** and **RabbitMQ** for distributed transaction management.
  - Designed **Nested Object** schemas in MongoDB to optimize domain-specific data retrieval and support complex real estate business logic.
- **Data Engineering & Analytics:**
  - Engineered a real-time data pipeline using **Kafka (CDC)** to stream data from MongoDB to **Clickhouse**.
  - Developed **ETL** processes with **SCD Type 2** to track historical data changes and flattened nested structures for high-performance reporting.

    - Integrated **Apache Superset** for executive-level data visualization, enabling direct report viewing within the CRM module.
- **System Integration:** Developed a **Spring Boot** integration layer to standardize diverse data structures from 100+ subsidiaries into a unified reporting format.

e-Learning System (Internal Training Platform) *December 2025 – Present*

- **Legacy Modernization:** Maintained and expanded the platform using **.NET Framework 4.5.4** and SQL Server.
- **Advanced SQL Processing:** Optimized dynamic business reporting using **Nested Stored Procedures** and **Cursors**.
- **Automation:** Implemented complex business rules directly at the data layer using **Database Triggers**.

e-Hiring System (Recruitment Management) *November 2025 – December 2025*

- **Metadata-driven UI:** Developed a dynamic architecture where UI layouts are rendered based on Backend Metadata, significantly reducing deployment cycles.
- **Monorepo Development:** Managed cross-service business logic within a **NestJS Monorepo** environment.

FPT IS | SAP ABAP Developer

May 2022 – January 2023

- **Acecook Project:** Developed comprehensive reports for SD, MM, WM, and PP modules. Created a custom QR-code-based inventory release screen integrated with mobile applications.
- **Elanco Project:** Spearheaded the development of complex FI/CO financial reports by performing **Reverse Engineering** on sample data and T-codes, ensuring 100% data accuracy despite limited documentation.

ACADEMIC PROJECTS & RESEARCH

Vaccination Management System | Lead Developer

- *Award: 3rd Prize in University-level Scientific Research (2022)*
- Conducted on-site requirement engineering to model real-world medical workflows.
- Architected the database following **BCNF** standards and automated rule enforcement via Database Triggers.

EDUCATION & CERTIFICATIONS

- **Bachelor of Software Engineering** | HUTECH University
    - **GPA:** 3.53/4.0
- **Certifications:**
    - Agile & Scrum Training (DEK Technologies)
    - Internal SAP/ABAP Professional Training (FPT IS)
